

December 8, 2008

Dear Community Member:

On November 27<sup>th</sup>, 2008 we held an Open House on the proposed refinery, Project Eider Rock. We want to thank those who attended for your thoughtful questions and feedback. As with all of our previous Open Houses, the feedback collected will be shared with the federal and provincial government and considered as part of the environmental assessment process.

To follow up on the information provided at the Open House, and to inform those who were not able to attend, please find enclosed an up-to-date information brochure about the Project. This brochure contains the latest project timelines, site plan layout for the proposed refinery and other Project updates.

Complete copies of all of the environmental baseline studies that were presented at the Open House are now available on the Eider Rock webpage at [www.irvingoil.com/company/erock.asp](http://www.irvingoil.com/company/erock.asp).

We will continue to keep you informed as the Project progresses through future public events and information sessions. We will notify you of these sessions as they are scheduled.

If you have any questions about Project Eider Rock or would like to arrange a home visit, please email our team at [eiderrock@irvingoil.com](mailto:eiderrock@irvingoil.com) or call 1-888-525-1777.

Have a happy holiday season and New Year.

Sincerely,

Lesley MacLeod  
Irving Oil
