

Irving Marine Bunkering

Serving you at Canaport
Saint John, New Brunswick, Canada

Products you can trust

- **The right composition** – Our RMG 380 and Marine Gas Oil (MGO) are produced at our state-of-the-art Saint John refinery. All our products meet or exceed quality standards, and our delivery methods meet internationally-recognized MARPOL guidelines for sample collection and retention.

Our RMG 380 and MGO are delivered via the Algoma Dartmouth both at anchorage and berths in the Port of Saint John. Local agents with local knowledge help make this an efficient bunkering stop for you.

Operational excellence

- **Reliable supply** – The experienced crew of the Algoma Dartmouth provides you with safe and efficient

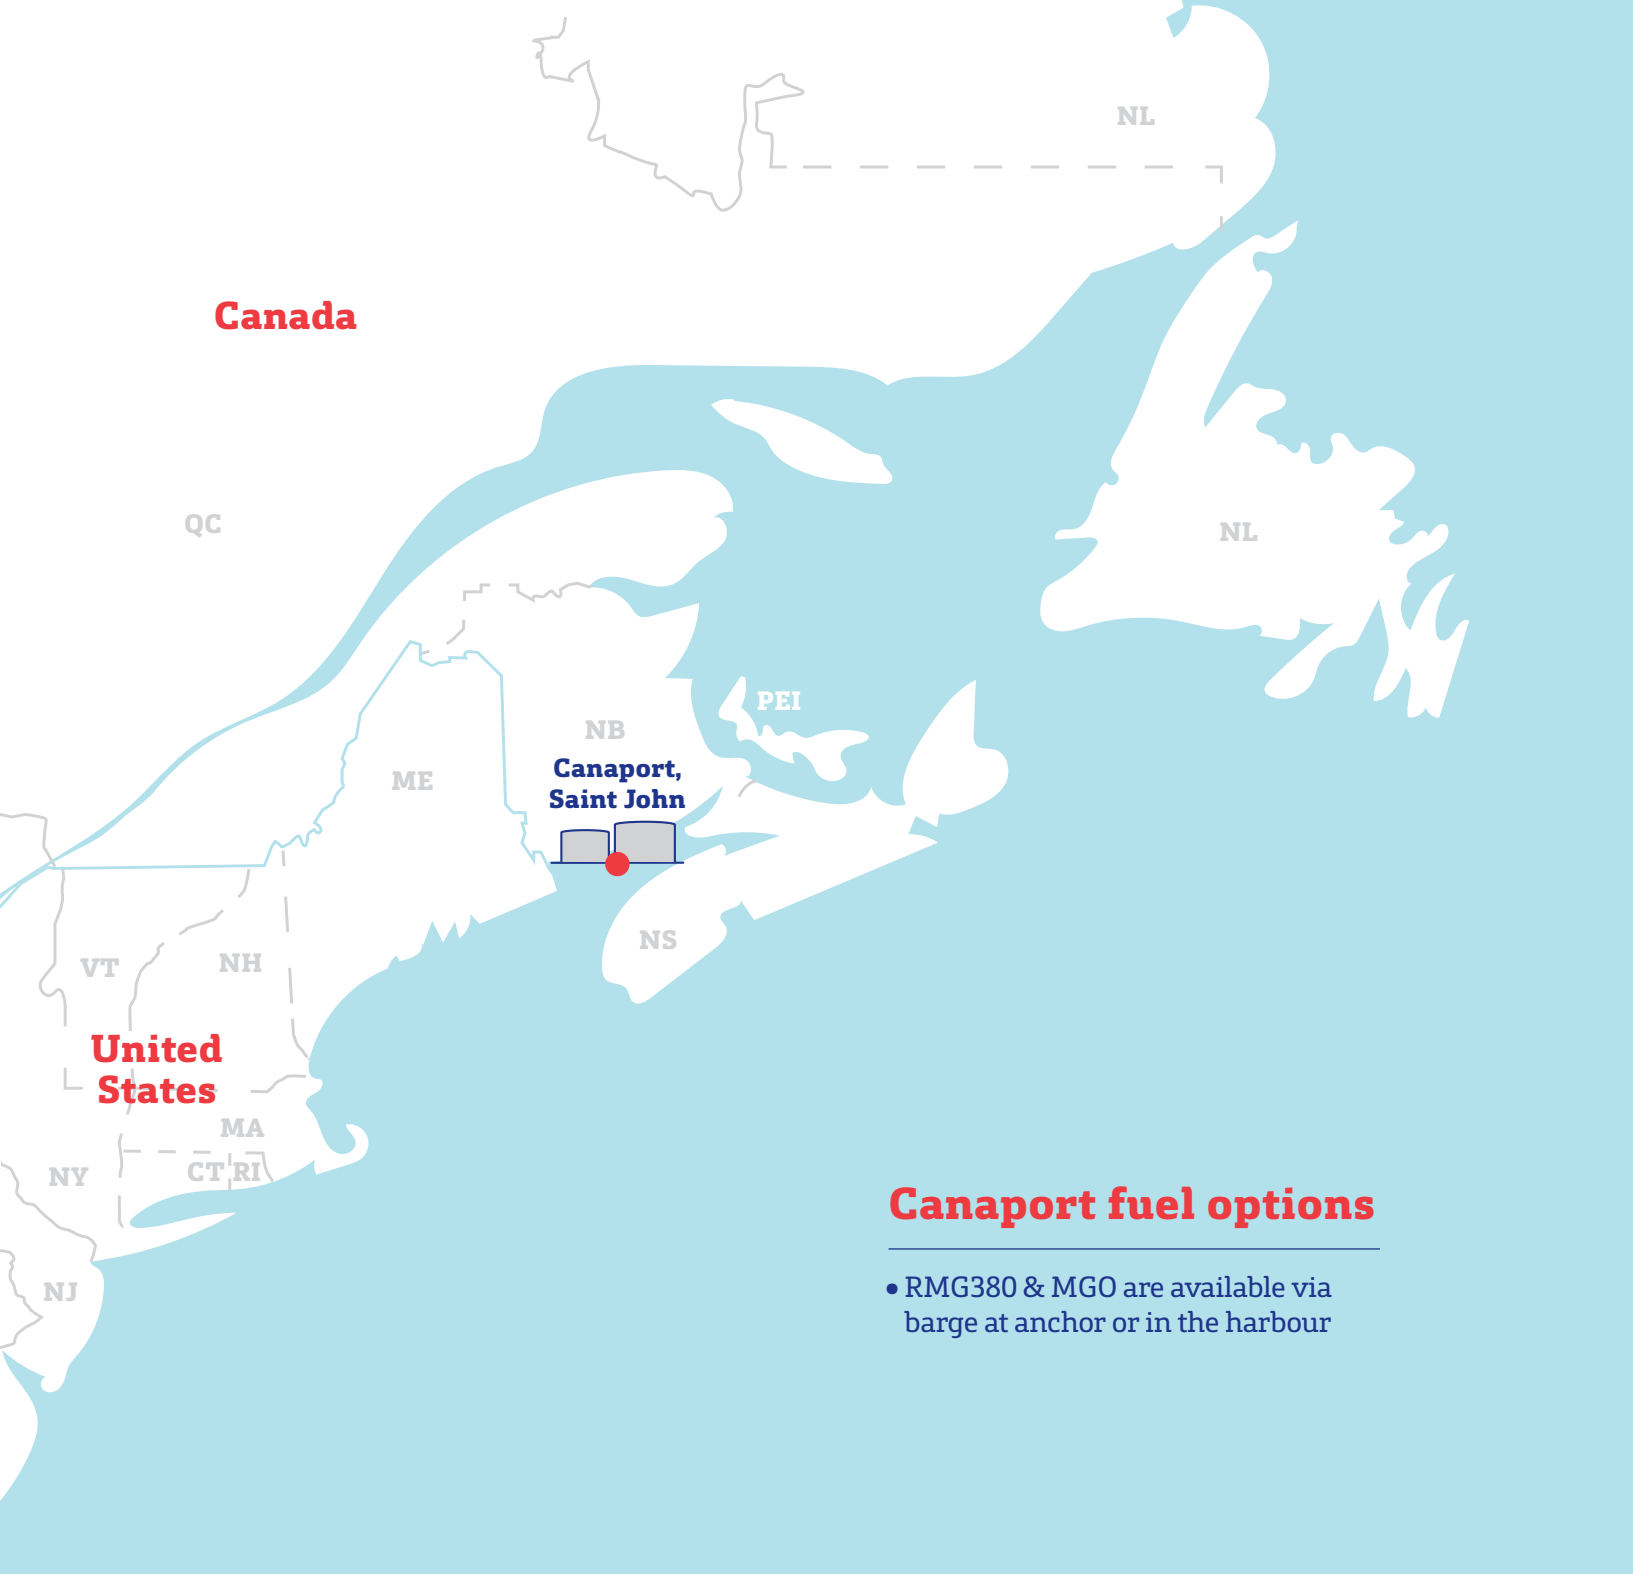

service. She can refuel vessels at a maximum operating capacity of 150,000 L/hour. The vessel supplies quality Irving Oil products using best safety practices and procedures.

A team on your side

- **Customer focus** – Our commitment to you is a part of who we are as a company. Since 1924, a customer-first approach has been one of our guiding principles.
- **People you trust** – Our responsive, local team understands the market, provides technical support and is dedicated to serving you.
- **Reliable support** – We have a dedicated Customer Support Team available to take care of your needs, and to answer any questions that you may have.
