

Product bottles

Looking for bottles to package up your products? We can help.

A team on your side

Is your business pitching in to help make hand sanitizer in this time of need? Are you looking for empty bottles to aid your efforts? We can help. Irving Blending and Packaging makes bottles at our 157,000-square-foot, ISO-certified blending and packaging facility in Saint John, NB. We can produce about 16,200 946-ml bottles a day and 9,000 3.78-L bottles a day. Since we produce more than 2,300 finished SKUs for distribution around the globe, you can be confident what you receive surpasses expectations.

Customer focus

Our commitment to you is a part of who we are as a company. Since 1924, customer focus has been one of our guiding principles. We build trusting relationships and respond to your needs quickly and respectfully.
