

Hand Sanitizer

Competitively priced. Locally made.
Licensed by Health Canada.

Our blend

Irving Hand Sanitizer is a 73% Isopropanol based hand sanitizer that meets Health Canada's requirements. This formulation was specifically designed to kill harmful bacteria and germs.

Operational excellence

Our hand sanitizer is being used in hospitals, schools and many facilities across Canada. The Natural Product Number (NPN) identifies that our sanitizer is licensed by Health Canada and meets all of the requirements for sale in Canada.

A focus on quality

All our products are quality tested from raw materials to finished packaged goods. Produced at our blending and packaging facility in Saint John New Brunswick Canada, we ensure our products are backed by one of the most robust quality standards in the industry.

A team on your side

Our commitment to you is a part of who we are as a company. Since 1924, serving our customers well has been one of our guiding principals. We build trusting relationships and respond to your needs quickly and respectfully.

NPN shows the
product is licensed by
Health Canada.
