

# Hand Sanitizer, 250 mL

Reliable supply to meet your needs.

## Reliable supply – made in Canada

Produced at our blending and packaging plant in Saint John, New Brunswick, we control all aspects of the product manufacturing process. We have a solid supply chain and a local team committed to getting you the products you need, when you need them.

## Licensed by Health Canada

Our hand sanitizer is being used in hospitals and many facilities across Canada. The Natural Product Number (NPN) identifies our sanitizer is licensed by Health Canada and meets all of the requirements for sale in Canada.

## Quality formula

Our Irving Hand Sanitizer is 73% Isopropanol-based and is specifically designed to kill harmful bacteria and germs. All our products are tested from raw material to finished packaged goods and we adhere to the most robust quality standards in the industry.

## Responsive customer service

Our strong commitment to our customers has been the way we have done business since 1924. We keep our promises to our customers and are always available when you need us.

**NPN shows the product is licensed by Health Canada.**
