

Industrial/Driveline Used Oil Analysis Test Packages

These kits are good choices for customers such as mills, manufacturing facilities, and refineries monitoring hydraulic systems, circulating systems, gearboxes and pumps. These kits are also ideal for customers with heavy equipment fleets or transportation fleets monitoring their driveline components, winches, hydraulics and transmission.

	Kit Option One \$17 SKU F0127100	Kit Option Two \$30 SKU F0127200	Kit Option Three \$50 SKU F0127300	Kit Option Four \$90 SKU F0127400
	<ul style="list-style-type: none"> Basic analysis of contamination, condition and wear 	<ul style="list-style-type: none"> Basic analysis In-depth look at the condition of the oil to monitor and/or extend drain interval 	<ul style="list-style-type: none"> Basic analysis In-depth monitoring of oil condition and contamination 	<ul style="list-style-type: none"> Previous 3 options Quantitative water result testing Monitoring of trace water contamination
	ASTM D5185 ICP Spectroscopy	✓	✓	✓
	Crackle test for water in oil	✓	✓	✓
	ASTM D445 Kinematic Viscosity (100°C or 40°C)	-	✓	✓
	ASTM D664 Total Acid Number (TAN)	-	✓	✓
	ISO 4406 Particle Count	-	-	✓
	ASTM D6304 Karl Fischer Water Determination	-	-	✓
Particle count only \$20 • SKU F0127500
