

# Jet fuel

## Supply chain excellence to help your business take off

With products that exceed manufacturer and environmental regulations, we are proud to build trusting relationships with our customers by delivering high-quality products through our reliable supply chain – from our refinery to your planes.

### Supply chain excellence

- **Best practices** – We have been supplying jet fuel for commercial airlines, military aircrafts, cargo carriers and corporate fleets for more than 40 years. As an IATA Strategic Partner, we practice the policies and procedures that have revolutionized aviation standards.
- **Reliable supply** – From our state-of-the-art refinery in Saint John, NB, a dedicated fleet of truck, rail and marine vessels delivers jet fuel to more than 15 airports in Atlantic Canada and New England.

### The products you need

- **High-quality products** – We produce and deliver jet fuel that meets CAN/CGSB-3.23, ASTM D-1655 specifications and rigorous internal testing. All to ensure our customers receive dependable products.

### A team on your side

- **Customer focus** – Our mobile team understands the market, provides technical support and is dedicated to serving you.

#### Customer support
